15 AAC 116.415. Common property fishery assessment rate. (a) A person subject to the common property fishery assessment under AS 16.10.455 shall pay an assessment at a rate determined by the department annually under (e) of this section, on the value of the salmon taken in a terminal harvest area that is subject to a common property fishery assessment.

(b) The common property fishery assessment rate is a fraction,

(1) the numerator of which is the projected assessment revenue for the current year; and

(1) calculate the total estimated amount of the hatchery permit holder's

- (B) reasonable operating expenses for the year;
- (C) reasonable maintenance expenses for the year; and
- (D) additional revenue needed to develop or maintain a reserve fund up to

(2) subtract, from that total estimated amount, the estimated amount of income from all sources that the hatchery permit holder expects to expend to satisfy the estimates under (1)(A) - (D) of this subsection, other than money estimated to be appropriated under AS 16.10.455(e) to the hatchery permit holder.

(d) The department will consult with the Department of Commerce, Community, and Economic Development for assistance in identifying current-year market conditions and salmon market trends. The department will consult with the hatchery permit holder to ensure the projected assessment revenue includes all cost components identified under AS 16.10.455(d). The department will consult with representatives of affected commercial fishermen for assistance in determining the projected regional price per pound of salmon subject to the common property fishery assessment.

(e) The common property fishery assessment rate for the calendar year 2012 for Hidden Falls Hatchery is twenty percent. (Eff. ___/___/___, Register ___)
